

It is alarming how few people see the severity of government overreach when it comes to covid-19. It is evident to those who do see that we are absolutely on a slippery slope that will lead to a permanent loss of humanity and freedom for every single one of us and our children. I understand that some people still fear covid-19 but I hope to get them to consider that our government has gone so far in the wrong direction that the most reasonable course of action right now is to cut all government covid programs immediately.

I'd like you to consider the following facts about COVID-19:

- The death rates for dying WITH covid-19 are: 0-19 (.003%), 20-49 (.02%), 50-69 (.5%), 70+ (5.4%)^[1]
- On average those who died with covid-19 had 2.9 comorbidities.^[2]
- Only 6% of the deaths reported by the media had no comorbidities according to the CDC.^[2]
- I do not think the flu just mysteriously disappeared. It seems more likely to me that flu deaths are now being counted as covid deaths.
- The tests used to count covid-19 cases are known to be inaccurate.^[1]
- Heart disease and cancer killed many more people than covid-19 in 2020.^[1]
- Numerous studies, including some done by the CDC, have shown masks to have little to no impact on the spread of covid-19.^{[3][4][5]}
- See Fig A. State after state and country after country the evidence is in. No correlation between mask mandates and covid cases.^[5]
- Children will pay the biggest price for covid-19 related government overreach.^[1]
- Many people have already acquired natural immunity to covid-19 and many others have been vaccinated.

Do you think it will be just get your covid-19 shot and that's it? I'm sorry to tell you it will not end there. It will never end. You will be subject to government vaccinations on a periodic basis under penalty of restricted access to travel and employment. Once that precedent is established they could inject people with pretty much anything they want for any reason they make up. It's not a crazy conspiracy theory. No one is talking about injecting you with 5G microchips. That's a strawman used to discredit those of us who actually are "following the science".

I ask you the favor of at least considering my conjecture because if I am right we are all in very big trouble and we need to act, legally and peacefully, outside of traditional channels to end all government covid programs immediately in order to save lives. It will never be easier for us than it is right now. I think if they are not ended very soon they will become a permanent and tyrannical part of all our lives.

I really would like to hear from you. It's not like I have a plan but I think as citizens we should be talking to each other about this. seanmchugh513@protonmail.com or join Ohio Stands Up! on mewe (I am unaffiliated) and chat there.
